Inquest Into Death Of W. Larson

Shows Injuries Follow Fight

Coroner's inquest into the death of William Larson, 40, of Stettler, Alberta, who was killed by a car on Highway 1A, near the town of Stettler, on November 10, 1955, was held in Stettler on Wednesday.

The jury deliberated for five hours and returned a verdict that Larson died as a result of injuries sustained in a fight with an unidentified person. The jury also found that Larson was not negligent in the circumstances of his death.

Larson was driving a 1954 Chevrolet when it was struck by a car on Highway 1A, near the town of Stettler, on November 10, 1955.

Why Plant Woods?

Alberta Forestry Dept. 12 and 13 million acres of forest land are being planted each year and this requires 12 million seedlings of various types of trees. The Forestry Department of Alberta Planting Field Improvement Service.

Seeds of grain obtained in the spring of 1960 indicated at least 10 million bushels more of seedling quality. These seeds have been returned for use in the spring of 1961.

The average seed cost per bushel of seedling grain is \$1.00.

Trade Now & Save! Take Delivery Later

You probably know that General Motors have been faced with a strike at their Ontario factory. The strike has continued for some 100 days and has delayed our 1956 Chevrolet commitment.

"But we have good news for you. You can save money if you trade your car in now."

"You will get 1955 prices for your present car. The allowance for your car will be credited to your account plus interest at 5 per cent."

"Your 1956 Chevrolet will be delivered as soon as possible."

You have the opportunity of spending under the model and color you desire. There are 160 color models in Chevrolet to choose from along with 49 color combinations and five choices of interior trims.

"We have seen the beautiful 1956 Chevrolet and it's worth waiting for."

"Watch for our new model announcement day it's coming soon."

Growing Emphasis On Quality In Wheat

From time to time we are reminded of the steps that various countries are taking to improve the quality of their wheat. In the United States, for example, the Federal Grain Inspection Corporation has been set up to insure that the wheat grown in that country meets certain standards. In Canada, the Grain Inspection Board has been established to carry out similar duties. In the United Kingdom, the Ministry of Agriculture has been working to improve the quality of its wheat. The Canadian Social Credit

W. L. Bright of Stettler has sent us a copy of The Canadian Social Credit, a new publication of the Social Credit Party of Canada. It is a pamphlet of 16 pages, and its purpose is to inform the reader of the principles and objectives of the Social Credit Party. It is a well-written and informative pamphlet, and it is a must-read for anyone interested in the Social Credit movement.

FEED CUTTERS

We can supply you with any one of a large assortment of Grain Grinders, Hammermills, Our Rollers, Feed Cutters, or Combination Feed Mills. Whether you want a bolt driven model or P.T.O. we can fix you up. For larger models trailer assemblies are also available.

Grain Grinders
Massey-Harris again have their own model. It is a very compact unit and the price is right.

Feed Cutters
For a straight feed cutter we offer you two good models - Gehl and George White. Both are tried and proven.

Hammermills
The distributor for the famous, Gehl line has changed recently and we are once again in a position to supply you with their well-known Hammermills. For those who want a larger Hammermill we have a 13" O.K. machine.

Combination Feed Mills
For those of you who want a combination feed mill we have one that will do almost anything and everything. It is the "Beador" of course. We have demonstrated and sold enough of them to know they are a fine unit. See us for samples of grain and roughage that this mill has put out.

Out Rollers
Preferred by many of the cattle feeders, these machines are available in sizes that cost as low as \$125.00 to the large models with P.T.O. drives and trailers that run up to \$450.00. If interested call for more information.

Turkey Dinner

Phonies, a turkey dinner is a holiday tradition. It is a time when the family gathers around the table to enjoy a meal of turkey, stuffing, and other festive dishes. The turkey dinner is a symbol of togetherness and celebration. It is a time when the family can relax and enjoy each other's company. The turkey dinner is a tradition that has been passed down for generations. It is a time when the family can create memories that will last a lifetime.

Christmas Rose Is Hallowed By Legend

The Christmas rose is a hallowed flower. It is a symbol of love and devotion. The legend of the Christmas rose tells of a young girl who was devoted to her mother. She was a beautiful girl with long, dark hair. She was a very kind and gentle girl. She was a girl who was loved by all who knew her. She was a girl who was a true daughter of God. She was a girl who was a true Christmas rose.

The Wrapping Can Make The Gift, Anyone Can Gift-Wrap

It is a common saying that the wrapping makes the gift. This is not always true. The gift itself is what matters. The wrapping is just a way to make the gift look nice. Anyone can gift-wrap. It is a simple task that can be done by anyone. The gift is what counts. The wrapping is just a way to make the gift look nice.

Can We Get Rid Of Buns?

There is an age-old belief that buns are a curse. This is not true. Buns are just a type of bread. They are a delicious food that can be enjoyed by anyone. There is nothing wrong with buns. They are a part of many cultures and traditions. They are a food that has been enjoyed for centuries.

Important Notice

Between Christmas Day and New Year's Day fall in line! Starting this year and because our Sunday schedule runs up half month later than last year's, we feel that any one not having traveled on either of these days would prefer an earlier service. With this thought in mind and giving regard for the days that have been declared as holidays we wish to announce the following changes in our services over the Holiday season:

Christmas Day, Dec. 25th:	Regular worship service.
January Day, Dec. 26th:	Worship: weekday service.
Official Holiday, Dec. 27th:	Sunday Service.

On May 1, 1955, a group of 100 persons, including 100 members of the Communist Party, met in the Washington Hotel in New York City to discuss the formation of a new organization. The group was led by CP USA Council member, William Z. Foster, and included several members of the CP USA National Committee. The group was organized as the National Committee for the Abolition of the Arms Race, and was headed by Foster. The group was organized to promote the abolition of the arms race, and to promote the disarmament of the United States. The group was organized to promote the disarmament of the United States, and to promote the disarmament of the United States. The group was organized to promote the disarmament of the United States, and to promote the disarmament of the United States.

Canadian Air Transport Control Authority (CATC) has announced that it will be conducting a series of tests to determine the effectiveness of the new system. The tests will be conducted in the next few months and will involve a number of flights between major Canadian cities. The CATC is confident that the new system will be a significant improvement over the current system and will help to reduce the risk of accidents.

In August, the Western nations' grain harvests were down 10% and South America's was down 20% of 1984's levels. These rains, however, have helped the United States to 600 bushels there, but the United States is expected to produce 1.8 billion bushels in 1985. Projections indicated a 1985 harvest of 1.9 billion bushels, or 10% more than 1984's.

South America's grain harvests are also expected to be down. Argentina's grain harvest is expected to be down 10% from 1984's level. Brazil's grain harvest is expected to be down 20% from 1984's level. Chile's grain harvest is expected to be down 30% from 1984's level. Colombia's grain harvest is expected to be down 40% from 1984's level. Ecuador's grain harvest is expected to be down 50% from 1984's level. Peru's grain harvest is expected to be down 60% from 1984's level. Venezuela's grain harvest is expected to be down 70% from 1984's level. Uruguay's grain harvest is expected to be down 80% from 1984's level. Paraguay's grain harvest is expected to be down 90% from 1984's level. Bolivia's grain harvest is expected to be down 100% from 1984's level.

145,000 New Canadians Born During 1955 For New High

Canada's population grew by 145,000 in 1955, the highest annual increase since 1951. This growth was primarily due to immigration, which reached a record high of 145,000 in 1955. The majority of these new Canadians were born in Europe, with a significant number coming from the United Kingdom and Poland. The government has been successful in attracting skilled immigrants, which has helped to boost the economy and diversify the workforce.

Village of Alix Seeks Inclusion in Lacombe Hospital District

Village of Alix, a hamlet of 150 people, is seeking inclusion in the Lacombe Hospital District. The village is located about 10 miles from Lacombe, Alberta. The Lacombe Hospital District is one of the largest in the province. The village of Alix is a small community with a few businesses and a school. The residents of Alix are concerned about the quality of medical services available in their community. They believe that inclusion in the Lacombe Hospital District would ensure that they have access to the same level of medical care as the residents of Lacombe. The village council has passed a resolution to request that the Lacombe Hospital District include Alix. The district is expected to make a decision on the request in the near future.

New A Test To Measure How "Fast" You Live!

Wiresmen and Potatoes

How extremely poor the weather has been in the last few days, and how much it has helped to bring about a record for the winter, is shown by the fact that the wiresmen and potatoes are both in a bad way. The wiresmen are in a bad way because the weather has been so cold that the wires are frozen and the potatoes are in a bad way because the weather has been so cold that the potatoes are frozen.

"Golden Rule" of Lending for New Times

The Golden Rule of Lending is to lend to the man who can pay. This is the only rule that will keep the lender from being taken in by a borrower who is unable to pay. The lender should always remember that the borrower is the one who is responsible for the loan, and the lender should always remember that the borrower is the one who is responsible for the loan.

Safety Sam Says...
Better charge
a buffalo...
than drive
too fast on
ice or snow!
It's as simple as this. In winter
roads usually fall. Snow usually
gets into your tracks. If you
drive too fast over something
that's hard and slippery, you're not
so sure you can stop. You're not
so sure you can turn. You're not
so sure you can avoid a collision.
So, when you drive in winter,
be careful. Be slow. Be safe.
And you'll be happy.

War On Drug Smuggling Showing Effective Results

A new anti-drug campaign is being launched by the Federal Bureau of Investigation (FBI) to combat the growing problem of drug smuggling. The campaign, which is being conducted in cooperation with the Customs Service, is aimed at reducing the flow of narcotics into the country. The FBI has announced that it has seized over 100,000 pounds of narcotics in the past year, a record for the agency. The campaign is being conducted in a number of ways, including the use of undercover agents, the establishment of drug courts, and the implementation of new laws. The FBI is also working to educate the public about the dangers of drug use and the consequences of drug smuggling. The campaign is expected to continue for some time, as the FBI and Customs Service continue to work together to combat the drug trade.

Warning Stations Due North

The world's most dangerous place is due north, according to a new study by the United Nations. The study, which was conducted by a team of scientists from various countries, found that the area between the North Pole and the Arctic Circle is the most dangerous place on earth. This is because of the extreme cold, the lack of food and shelter, and the presence of many dangerous animals. The study also found that the area is the most dangerous place for humans, as well. The scientists recommend that humans should avoid the area at all times.

Welding Schools

The welding industry is growing rapidly, and as a result, the number of welding schools is also increasing. There are now over 100 welding schools in the United States, and the number is expected to continue to grow. These schools offer a variety of programs, from short-term courses to full-time degrees. The programs are designed to teach students the skills and knowledge needed to become professional welders. The schools also provide students with the opportunity to gain hands-on experience in the welding industry. This experience is essential for students who want to become successful welders.

New Year Superstitions

As the New Year dawns, many people turn to superstitions for guidance. There are a variety of superstitions that are believed to bring good luck or ward off bad luck. Some of the most common superstitions include: not sweeping on New Year's Day, as this is believed to sweep away good luck; not borrowing or lending money on New Year's Day, as this is believed to bring financial trouble; and not saying "goodbye" on New Year's Day, as this is believed to bring bad luck. There are also many superstitions that are specific to different cultures and religions. For example, in some cultures, it is believed that a black cat crossing one's path on New Year's Day brings good luck. In other cultures, it is believed that a black cat crossing one's path brings bad luck. The superstitions are a part of the New Year traditions in many cultures, and they continue to be practiced by many people today.

The Year We Have To Make

The year 1953 is a year of challenges and opportunities. It is a year in which we must make significant progress in many areas, including the economy, the environment, and social issues. The challenges we face are many, but they are not insurmountable. If we work together, we can overcome these challenges and create a better future for ourselves and for the world. The opportunities we have are also many. We have the technology, the resources, and the knowledge to solve the problems we face. We have the ability to create a more just and equitable society. We have the power to make a difference in the world. It is up to us to make the most of these opportunities and to create a better future for ourselves and for the world.

The Crisis Months are Here

NOW is the time to do inside renovation and repair jobs.

NOW is the time to have equipment, Trucks, Tractor, Cars, etc., overhauled and serviced for spring.

NOW is the time to make a real COMMUNITY EFFORT, each one doing his bit - with no job too small, none too large - to keep our Community prosperous and happy, by providing employment for its citizens.

DO IT NOW

If You Want a Job Done RIGHT "DO IT NOW"

Spring will see another record construction season underway. Contractors will be busy - skilled tradesmen scarce.

HELP YOURSELF
HELP YOUR COMMUNITY
"DO IT NOW"

Have as much work as possible done during the next three months!!

Everyone in our community suffers when our tradesmen are idle.

Massey-Harris-Ferguson ARE OUT IN FRONT IN THE FARM MACHINERY FIELD!

One of the main reasons for their high standing is the fact that their efforts are all concentrated on one line — farm machinery.

Kroeger Bros.

We follow the same line of thought. We stay exclusively as possible to the farm machinery line. In fact we turned down a major car contract in Stettler last year in order that we can continue to put all our time and efforts on our Massey-Harris and Ferguson farm implement business.

IN THE PAST — NOW — IN THE FUTURE —

We specialized in farm machinery. We specialize in farm machinery. We will specialize in farm machinery.

Do you get the cheserfield?

When guests stay overnight, do you the one who must give up the bed and move into the cheserfield? Then you're probably thinking, as you stand and wonder, that you must fit up a guest room as soon as you've saved the money.

We all have different reasons for moving. The big thing is to decide what you want, then move for it, either through a regular agent or through a "Special Agent" — cheserfield — who will help you.

So before you fit up a guest room, call on our Special Agent cheserfield. You'll change to glad you did.

TOWN OF SETTLER Notice Of Nomination Meeting 1956

Public Notice is hereby given that I will attend at Town Office on Monday, the 20th day of February, 1956, from eleven o'clock in the forenoon until twelve o'clock noon, for the purpose of receiving Nominations of Candidates for the Office of Councillors for the next ensuing three years. And also nominations for School Board Trustees.

Given under my hand at Settler this 11th day of February, 1956

D. H. CANADINE
Returning Officer

D. A.'s Notes

The winter of 1958-59 has been one of the most severe in the history of the town. The snow has been so deep that it has been necessary to close the schools and the roads. The people of the town have been suffering from the cold and the snow. The town council has been working hard to keep the roads open and the schools running. The people of the town have been very patient and understanding. The town council is very grateful for their cooperation.

Tillage Machines

We have just received our first large initial shipment of farm machinery for spring. The following were included.

- No. 25 Cultivator**—These 3-row cultivators are excellent for all ordinary cultivation jobs. They stand up well, and are not easily plugged in the field. We have them in both mechanical and hydraulic models. They are remarkably cheap for the work they will do.
- No. 26 Wide Levels**—Massey-Harris disc harrows are becoming more popular each year in this district. They will give you low operating costs for that first-time over job in the spring. And since the discs are in gangs, this flexibility gives you the even sowed bed you desire. True when used over a deep tillage-cultivator this makes an especially ideal combination. Because they are equipped with the Massey-Harris patented lift, they are easy on themselves, since the discs ONLY are raised. This results in long life for the machine with relatively small up-keep. They are available in mechanical or hydraulic models.

Demonstration Model For Sale

It's a new Farmhand V-Snow Plow. Only used once—just like new. At a big discount.

Damage To European Crops Affects Canada

The European countries which are the main sources of wheat and other grain crops for Canada are suffering from a severe drought. This is causing a shortage of grain in Europe and a consequent rise in prices. This situation is of great concern to Canada, as it is a major importer of grain from Europe. The Canadian government is taking steps to ensure that it has enough grain to meet its needs, but the situation in Europe is still very uncertain.

a new peak in power

IN THE NEW
COCKSHUTT "35"

It's here - now. The latest from Cockshutt "35". A real powerhouse of strength and speed, the new Cockshutt "35" provides a lot more than power. Tremendous economy is another feature. And again, power that does plenty of engine power. It supplies plenty of driving power plus real draft strength for average jobs, yet power to haul heavy loads and spread for the toughest haying jobs. And again, power to pull a plow or spread for winter tilling the ground to prevent working deep, power and more to power the entire tractor necessary to give you extra years of dependable service.

New Cockshutt "35 PB" Diesel

In the 3-4 glow field of diesel powered tractors, the Cockshutt "35 PB" is a standard unit. Its engine and transmission are designed especially for economy and rugged heavy duty construction. Unbelievable fuel economy and again, power to pull a plow to break up to 2000 lb. front, "later" Power Shift, hydraulic engine, clutch of four shafts with the slip clutch available in flexibility. Orders you buy any Cockshutt power prove a 35 PB.

Prices Have Dropped

On Massey-Harris Drills

Massey-Harris drills have a reputation for durability and for good working qualities. And, in spite of general price increases throughout the whole machinery industry, we know you will be as glad as we are that Massey-Harris-Ferguson have been able to lower their prices on this item of machinery.

On a particular model of Massey-Harris drill that sold for \$1002.40 last year the general price increase of 7% would bring the price to \$1072.55. BUT this same drill, with the price drop, we are selling this spring for \$979.50, or a saving to you of \$93.05.

In addition we are handling this spring for the first time hydraulic drills. On the model quoted above this is another \$20.00 cheaper, or a total saving to you on this drill of \$113.05.

Find Freight Costs Keep Industry Aways From Alaska

Alaska freight costs are so high that the federal government is not likely to build a new road to the north, according to a report by the Alaska Freight Bureau.

The bureau's report states that the cost of shipping goods to Alaska is so high that it is not profitable for most companies to do so. The bureau estimates that the cost of shipping a ton of goods to Alaska is about \$100, while the cost of shipping a ton of goods to the rest of the country is only about \$10.

The bureau also states that the cost of shipping goods to Alaska is so high that it is not profitable for most companies to do so. The bureau estimates that the cost of shipping a ton of goods to Alaska is about \$100, while the cost of shipping a ton of goods to the rest of the country is only about \$10.

Why Did Hog Prices Drop? Ottawa Correspondent

By J. H. HARRISON
Ottawa

Hog prices have fallen sharply in the last few weeks, and the reason for this is not what you might think. It is not a shortage of hogs, nor is it a surplus. The reason is that the weather has been so good that the hogs have been able to fatten themselves up very quickly.

The weather has been so good that the hogs have been able to fatten themselves up very quickly. This has led to a surplus of hogs, and the prices have fallen as a result.

Muscles of Iron Really Jelly

By J. H. HARRISON
Ottawa

When a man's muscles are as hard as iron, they are also as jelly. This is because the muscles are so tight that they cannot move. This is a condition known as "iron muscles," and it is a very serious condition.

10 DAYS between PROFIT and LOSS

Ten days after the grain starts to grow and the temperature drops — and the crop is in the ground — it's time to start thinking about the difference between profit and loss.

Ten days — your entire harvest season — would have made the difference between profit and loss. That's why the difference between profit and loss is so small. It's only ten days. All Alberta Anglers Must Have One Dollar License This Year

Starting this year, all anglers in Alberta must purchase a one-dollar license to fish in the province's waters. This license is required for anyone over the age of 16 who is fishing for sport.

The one-dollar license is a small price to pay for the opportunity to enjoy the great outdoors and the many fish species found in Alberta's lakes and rivers.

Anglers can purchase their license at any of the designated locations throughout the province. It is important to have your license with you when you are fishing.

The revenue from the license fees is used to support the Alberta Fish and Wildlife Service's conservation efforts and to maintain the province's fishing infrastructure.

For more information about the one-dollar license and where to purchase it, visit the Alberta Fish and Wildlife Service website.

WEDDING

Planning a wedding can be a stressful and expensive task. However, there are many ways to save money and make your wedding day special. One of the most important decisions you will make is where to have your wedding.

There are many factors to consider when choosing a wedding venue, including the size of the ceremony, the type of reception, and the overall theme of the wedding.

One of the most popular wedding venues is a hotel or resort. These venues often offer a wide range of services, including catering, decorations, and transportation.

Another popular option is a restaurant or banquet hall. These venues often have a more formal atmosphere and can accommodate a large number of guests.

For a more unique and intimate wedding, consider a garden or outdoor venue. These venues often offer a beautiful backdrop for your ceremony and reception.

Whatever venue you choose, it is important to book it as early as possible to ensure that it is available on your wedding day.

With careful planning and a little creativity, you can have a beautiful and memorable wedding day without breaking the bank.

For more information about wedding planning and venues, visit our website or call us today.

New Regulations On Use Of Diethylstilbestrol In Livestock

The Food and Drug Department has issued new regulations regarding the use of diethylstilbestrol (DES) in livestock. The regulations state that DES is to be used only for the treatment of certain conditions in livestock and is not to be used for the purpose of promoting growth or increasing milk production. The regulations also state that DES is to be used only under the supervision of a veterinarian.

Minister States Policy On Highway 12, Castor East

A 45-man delegation from the Stettler area met with the Minister of Highways, Mr. J. A. Stewart, to discuss the proposed widening of Highway 12 from Stettler to Castor East. The delegation, led by Mr. J. H. Smith, presented a petition signed by 45 residents of the area, requesting that the highway be widened to 36 feet to improve traffic conditions and safety.

The Minister stated that the government is committed to improving the highway system in Alberta and that the proposed widening of Highway 12 is a priority project. He assured the delegation that the government will do its best to complete the project as soon as possible.

5,000 Year Old Town Uncovered By Archaeologists

CHICAGO, December 15.—Archaeologists have uncovered a 5,000-year-old town in the state of Illinois. The site, known as Cahokia, is located about 100 miles from St. Louis. It is the largest prehistoric site ever discovered in North America. The site was first discovered in 1890 by a farmer who was plowing his field. He found a large earthen mound. Since then, many other mounds have been discovered. The site is now a national monument. It is one of the most important archaeological sites in the world. It shows the advanced civilization of the Indians who lived there. The site was occupied from about 1400 to 1300 B.C. It was a great center of trade and commerce. It had a large population of about 10,000 people. It had a complex system of government. It had a highly developed culture. It was a great achievement of the human race.

Shift In Britain's Agricultural Policy

LONDON, December 15.—The British government has announced a shift in its agricultural policy. It is now planning to increase the production of food crops. This is a major change from its previous policy of focusing on the export of agricultural products. The new policy is aimed at reducing the country's dependence on foreign food supplies. It is also aimed at increasing the income of farmers. The government has announced that it will provide subsidies to farmers who produce food crops. It will also provide subsidies to farmers who export agricultural products. This is a significant change from its previous policy of providing subsidies only to farmers who export agricultural products. The new policy is expected to have a major impact on the British agricultural industry. It is expected to lead to a significant increase in the production of food crops. It is also expected to lead to a significant increase in the income of farmers.

The National Quinquennial Census of 1956

The 1956 census is the first of a series of censuses to be taken every five years. It is the largest and most comprehensive census ever taken in Canada. The census is taken by the Statistics Canada department of the federal government.

A Big Smile For Mom!

The biggest reason for Mom's big smile is the fact that her baby is healthy and happy. This is the result of the excellent care provided by the Sterling Studio.

Alberton Make 12,000-mile Trip

A wild frontier adventure - to the heart of the Canadian West - is the story of the 12,000-mile trip made by the Alberta family in the only one ever to be made in the West.

Traveling in a seven-passenger car, the Alberta family left Stettler on June 1, 1957, for the heart of the Canadian West. They arrived in Edmonton, Alta., on June 15. In these seven months, says Mrs. Ory, "we've had rain, except over narrow mountain trails through the forests, and we've been in the heart of the Canadian West."

In Stettler they arrived at a time when a herd of long-horn cattle was being shipped to the coast. They found the cattle in the heart of the Canadian West. They found the cattle in the heart of the Canadian West.

Before you know it... "SCHOOL'S OUT"

Life On Earth Two Billion Years Ago

There was a life on the earth two billion years ago. It was a life that was very different from the life we know today. It was a life that was very different from the life we know today.

A Tribute to Farmers

On Farmer's Day - June 8

The closest I've ever been to being a farmer was, when I was called one by a sympathetic Edmonton Traffic Cop. Outside of knowing that vegetable soup does not grow on trees I know very little about farming. The closest I've ever been to a tractor was behind one on a highway - a very slow one I thought. Once when I was very young - about a hundred years ago - I spent a whole week on a farm. The chicks were chirpy, the ducks were ducky, and the cows were cute. But one evening last year we visited Mr. Lohr's farm and on another time Mr. Taylor's and several others and I was HIGHLY impressed. I realized that a successful farmer is a super human. He must not only have a full knowledge of agriculture but he must be a mechanic, a carpenter, a veterinarian, a weather prophet, a forecaster of the food market, an odd machine, in fact an accountant in his own practical way. All these and more. I became a tremendous admirer of the farmer and his farm. Now don't get me wrong - I don't want to buy a farm - I returned to shop keeping well over my quota of happiness just in selling to farmers' wives.

Tests Reach 36,000 Degree Temperature

Scientists at the Los Alamos National Laboratory have achieved a breakthrough in nuclear fusion research. They have reached a temperature of 36,000 degrees Celsius, which is a significant milestone in the development of fusion energy. This achievement brings us closer to the goal of creating a clean, sustainable source of power.

Stettler & District Board of Trade

AN OPEN LETTER TO STETTLER MERCHANTS

Re. Parking Problems in Stettler's Shopping Area.

You as merchants, are continually worrying for ideas on attracting people to your place of business. You must have their goodwill to maintain your business.

Your Board of Trade also watches for things which might irritate people who come to our town. When we find something wrong we try to solve the problem.

At present one of our problems is the providing of adequate parking-space for customers' cars. To help the making of more room on the streets and overruns in the shopping area we are asking all businessmen to check the space of the rear of their business premises for possible parking-space for their own cars. If you find that you have more room than you need, how about arranging to let your neighbor, who hasn't enough, use the extra space that you have? That may help to make room for your customer in front of your store.

The above is respectfully submitted, by the Board of Trade of Stettler and District, for your careful consideration in the hope that there may be general co-operation by all concerned.

Oxygen and Carbon Monoxide

When a person is in a confined space, such as a basement or a room, and there is a fire, the fire can produce a large amount of carbon monoxide. This gas is colorless and odorless, and it can be very dangerous. It can cause a person to become unconscious and even die. It is important to know the signs and symptoms of carbon monoxide poisoning, such as dizziness, headache, and nausea. If you suspect that you or someone else is poisoned, get out of the room immediately and call the fire department.

6-8 Official to Education

James W. McLeod, 6-8 official to education, was named to the position by the board of trustees of the Stettler school district. McLeod, who has been in the district for several years, will be responsible for the day-to-day operation of the district's educational program. He will also be responsible for the financial management of the district. McLeod is a graduate of the University of Alberta and has a degree in education. He has been a member of the Alberta Teachers' Association and the Canadian Education Association.

How Effective is the New Line Of Russian Leaders

The progress in Russian foreign policy over the last few years has been a subject of much discussion. The new line of Russian leaders, which began with the death of Khrushchev, has been characterized by a more flexible and pragmatic approach to international relations. This has led to a series of agreements and treaties with the West, which have been seen as a sign of a new era of détente. However, some observers have questioned the effectiveness of this new line, pointing out that the Soviet Union has not yet achieved its goals in the Middle East and in Eastern Europe. They also point out that the Soviet Union has not yet achieved a balance of power with the United States.

A Northern Area Soil Survey

The Canadian Department of Agriculture has completed a soil survey of a large area in the northern part of Alberta. The survey was conducted by a team of soil scientists and was the result of a long-term project. The survey has provided valuable information about the soil conditions in the area and will be used to guide agricultural development.

Australia's Wheat Growing Record

Wheat in Australia has reached a new record, with a total of 10 million bushels produced in 1968-69, according to the Australian Wheat Board. The record was set in the state of New South Wales, where the yield was 100 bushels per acre. This is a significant increase from the previous record of 90 bushels per acre, set in 1967-68. The success is attributed to a combination of factors, including improved farming techniques, better weather conditions, and the use of modern machinery.

Southern Alberta Hunting Season

Opens 5 Days Later

The 1969 hunting season in Southern Alberta has been delayed by five days due to late spring weather. The season, which opens on August 10th, will run until September 15th. The delay was announced by the Alberta Wildlife Management Board. The board stated that the late spring weather had caused the game to be in better condition than in previous years, and therefore the season was extended.

Teen-Age Bride of Millionaire Was Symbol of Wild, Wacky Twenties

New York. The former 1920s flapper who was the symbol of wild, wacky Twenties, died last night at the age of 70. She was the only woman to have been married to a millionaire before she was 20.

She was the only woman to have been married to a millionaire before she was 20. She was the only woman to have been married to a millionaire before she was 20.

IF HE HAD TO DO IT... HE'D GET AN ELECTRIC CLOTHES DRYER!

The average man wouldn't buy heavy duty clothes and hang them up to dry more than once a year. But if he had to, he'd get an electric clothes dryer. It's the only way to keep your clothes looking like new.

After all, there is no easier, better way to keep the laundry clean than with an electric clothes dryer. It's the only way to keep your clothes looking like new.

 as an excellent leader, that
 should be encouraged to do
 so. Olyer is a man who has
 to think the frequent uncom-

Don't Take Driving Lessons From Relatives Or Friends

It is a common mistake to take driving lessons from relatives or friends. This is a dangerous practice, as they may not have the necessary qualifications to teach you. It is always best to take lessons from a professional driving instructor. This will ensure that you are taught the correct techniques and safety procedures.

will be eligible to vote on action 149 per cent and on a referendum if we have a referendum. The question of store hours came up in public at the meetings of the Board of Education on Tuesday, Sept. 17 and 18.

There were about 25 persons present at the meeting on Tuesday, Sept. 17. The secret ballot was taken on the motion that store hours remain open one night during the week with 22 in favor, six against and the Post-Standard abstained.

At a meeting on Tuesday, Sept. 18, the council decided to wait until an amendment to the by-laws was passed by the Board of Education. If the vote on the amendment Tuesday night, Sept. 18, is in the affirmative, it will be taken up on Thursday night.

Something To Gobble

As Thanksgiving approaches, many people are turning to soups for a hearty meal. This soup is a perfect example of a simple yet delicious recipe that can be made in advance and reheated when needed.

For a more substantial meal, try adding some ground beef and a can of tomatoes to the soup. This will give it a heartier texture and flavor.

Another variation is to use a can of corn and a can of green beans. This will add some texture and variety to the soup.

For a more elegant touch, try adding some fresh herbs like parsley or dill. This will give the soup a more sophisticated flavor.

Finally, for a more indulgent soup, try adding some cream or cheese. This will give the soup a rich and creamy texture.

These are just a few ideas for how to make a delicious soup for Thanksgiving. Get creative and enjoy the season!

OBITUARY

MR. EDWARD J. BERRY
Mr. Edward J. Berry, 68, of Stettler, died at his home here on Tuesday, September 30, 1958, at 10:30 a.m. after a long illness. He was born in Stettler, Alberta, on May 10, 1890, and was a member of the Stettler United Church. He was a well-known and respected member of the community. He is survived by his wife, Mrs. Mary Berry, and several children. The funeral will be held at the Stettler United Church on Thursday, October 2, at 10 a.m. Burial will be in the Stettler cemetery.

Three Senators

Three Senators from the province of Alberta are expected to be named in the next few days. The names of the candidates have not yet been announced, but it is expected that they will be chosen from among the prominent members of the provincial legislature. The Senate is an important branch of the government, and its members play a significant role in the legislative process.

Farm Loan Plan

The province of Alberta is planning to introduce a new farm loan plan. This plan is designed to provide farmers with access to credit at a lower interest rate than currently available. The plan is expected to be implemented in the near future, and it is hoped that it will help to ease the financial burden on farmers during these difficult times.

EDITORIAL OF THE WEEK

The Battle of Bow
The battle of Bow is a significant event in the history of the province of Alberta. It was a decisive victory for the Canadian forces over the American forces, and it marked the beginning of the end for the American presence in the region. The battle was fought on September 3, 1885, and it was a turning point in the North-West Rebellion.

EDITORIAL OF THE WEEK

The Battle of Bow
The battle of Bow is a significant event in the history of the province of Alberta. It was a decisive victory for the Canadian forces over the American forces, and it marked the beginning of the end for the American presence in the region. The battle was fought on September 3, 1885, and it was a turning point in the North-West Rebellion.

OBITUARY

MR. EDWARD J. BERRY
Mr. Edward J. Berry, 68, of Stettler, died at his home here on Tuesday, September 30, 1958, at 10:30 a.m. after a long illness. He was born in Stettler, Alberta, on May 10, 1890, and was a member of the Stettler United Church. He was a well-known and respected member of the community. He is survived by his wife, Mrs. Mary Berry, and several children. The funeral will be held at the Stettler United Church on Thursday, October 2, at 10 a.m. Burial will be in the Stettler cemetery.

Farm Loan Plan

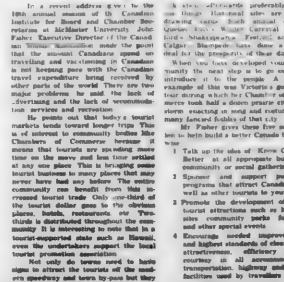

The province of Alberta is planning to introduce a new farm loan plan. This plan is designed to provide farmers with access to credit at a lower interest rate than currently available. The plan is expected to be implemented in the near future, and it is hoped that it will help to ease the financial burden on farmers during these difficult times.

THE MEN THAT CAME ONLY FOR THE OIL

Wainwright Refinery Opening Draws Distinguished Visitors

Wainwright, Alberta, Oct. 25.—The opening of the new Wainwright Refinery, which is the largest in the province, drew a large number of distinguished visitors from all over the province and the United States.

The refinery, which is owned and operated by the Canadian Refining Co., Ltd., is situated on the banks of the Athabasca River, about 10 miles from the town of Wainwright.

The refinery is a modern plant, equipped with the latest machinery and facilities. It is capable of refining 10,000 barrels of oil per day.

The opening ceremony was held on Tuesday, Oct. 25, and was attended by a large number of guests, including members of the provincial and federal governments, and representatives of the oil industry.

The refinery is expected to be in full operation by the end of the month.

What The Survey Showed

The survey showed that the majority of the population in the area is in favor of the refinery, and that it will be a great benefit to the community.

Mental Patients Cured

It is now estimated that 100,000 people in the United States are suffering from mental illness. However, it is now possible to cure many of these patients.

The Stettler Hospital has a special department for the treatment of mental patients. This department is staffed by experienced doctors and nurses, and is equipped with the latest facilities.

The hospital has a long history of successful treatment of mental patients, and is now one of the best in the province.

A Plea For More Blood Donors

The Stettler Branch of the Canadian Red Cross Society is appealing for more blood donors. Blood is needed for many purposes, and the supply is always low.

The Red Cross is a voluntary organization, and its members are dedicated to the service of humanity. They are always looking for more people to join their ranks.

If you are interested in becoming a blood donor, please contact the Stettler Branch of the Red Cross.

WAKE UP TO FACE COMMUNISM

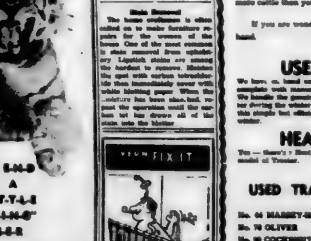

The Stettler Independent is pleased to announce the arrival of a new and improved Donalds and District News. This new paper will be published weekly, on Wednesdays, and will contain the latest news, sports, and community information for the Donalds and District area. The paper is owned and operated by the Donalds and District Community Association, and is a valuable resource for the residents of the area.

OBITUARY
Mrs. Anna B. Coomes
Anna B. Coomes, 84, of Stettler, died at her home on Monday, October 30, 1956, at the age of 84. She was born on January 1, 1872, in the town of Stettler. She was a member of the Stettler United Church and the Stettler Women's Association. She is survived by her husband, Mr. B. Coomes, and several children and grandchildren.

BECAUSE
THIS IS THE MAN
WHO WILL DO THE MOST FOR THE
STETTLER CONSTITUENCY

Galen C. Norris

You, the man who do the MOST for the Stettler Constituency is **GALEN C. NORRIS** who has lived all his life in the district and understands thoroughly the problems of the farmers and ranchmen who live in the area. Galen C. Norris was born in Stettler where he grew and spent his early years. An aggressive and public-spirited member of the community, he is 40 years old, married, with two young daughters. He has spent most of his life on the farm and is well-equipped to represent the Stettler Constituency in the Alberta Government.

FARMHANDS

We sold several Farmhands last week. Farmers buy them at this time of year to save money and to have the graphs to handle their feed during the winter.

If you, the grapher, like to handle your feed from the stock is probably the most valuable part of the Farmhand. It eliminates the back-breaking work during the cold winter months and allows you to look after your cattle when you could otherwise do.

If you are wondering how you can save with your feed problem this winter - think with us about a Farmhand.

USED LOADER
We have a used loader for sale. It's a "Dixie" loader with a front loader. It's in good condition and will handle a lot of work. Call us today.

EXIDE BATTERIES
If you need a new battery to go into the winter with, we have a good one. Call us today.

HEAT HOUSER
We have a heat houser for sale. It's a "Dixie" heat houser with a front loader. It's in good condition and will handle a lot of work. Call us today.

ANTI-FREEZE
We have anti-freeze for sale. It's a "Dixie" anti-freeze with a front loader. It's in good condition and will handle a lot of work. Call us today.

USED TRACTORS
We have used tractors for sale. They are in good condition and will handle a lot of work. Call us today.

USED TRUCKS
We have used trucks for sale. They are in good condition and will handle a lot of work. Call us today.

USED CARS
We have used cars for sale. They are in good condition and will handle a lot of work. Call us today.

Weeres' Report to Ratepayers

Report of J. E. Weeres to the ratepayers of the Stettler District was made at a public hearing held at the Stettler Hotel on Tuesday evening, November 12, 1957. The hearing was held to discuss the report of the Stettler District Board of Health and Sanitation, which was prepared for the ratepayers. The report was presented by J. E. Weeres, who is the chairman of the board. The report discussed the work of the board during the past year and the plans for the future. The board has been successful in many of its projects, including the construction of a new sewerage system and the improvement of the water supply. The board also plans to continue its work on these projects and to undertake new ones in the future.

Protect Pigs From Deep Cold
With the approach of cold weather, it is important to protect pigs from the deep cold. Pigs are very sensitive to cold and can suffer from frostbite and other cold-related ailments. To protect pigs from the cold, it is important to provide them with adequate shelter and bedding. Pigs should be kept in a dry, draft-free area with plenty of straw or hay for bedding. It is also important to provide pigs with warm water and food. Pigs should be checked regularly for signs of cold-related ailments and treated as soon as possible.

COULD THIS HAPPEN TO YOU?

The police forces in the province of Alberta have impounded 582 motor vehicles since Oct. 1st. This year when drivers could not produce proof of financial responsibility after being involved in an accident.

The government still holds 295 of these vehicles.

You will be surprised at the small amount adequate coverage will cost you.

Why Make 'em Then Break 'em

Let's face it—there are five years between the first and the last of the year. It's a long time to wait for the next year. But why make 'em then break 'em? It's a question that has puzzled many people for a long time. The answer is simple: because it's the only way to make the most of the year. If you wait until the last minute to do anything, you'll be in a hurry to get it done. But if you plan ahead, you can do it with ease and grace. So, why make 'em then break 'em? Because it's the only way to make the most of the year.

FOR THE BEST

At the end of 1938, we have a number of new and improved products to offer. These include a new line of clothing, a new line of furniture, and a new line of appliances. All of these products are made with the highest quality materials and are designed to last. So, if you're looking for the best, look no further than our new products. They're the only ones that will give you the best of everything.

GREENINGS

We all know that the holidays are a time of joy and celebration. But it's also a time of stress and strain. That's why we've created a new line of products called "Greenings." These products are designed to help you relax and enjoy the holidays. They include a new line of clothing, a new line of furniture, and a new line of appliances. All of these products are made with the highest quality materials and are designed to last. So, if you're looking for the best, look no further than our new products. They're the only ones that will give you the best of everything.

May Shed New Light On Many Biblical Mysteries

The Stettler Independent is pleased to announce the publication of the new book, "The Bible in the Light of Modern Science," by Dr. J. H. Stettler. This book is a revised and expanded edition of the author's previous work, "The Bible in the Light of Modern Science," published in 1954. It contains a wealth of new material, including a new chapter on the history of the Bible, and a new chapter on the Bible and modern science. The book is written in a clear and concise style, and is suitable for both the layman and the scholar. It is available in paperback for \$2.95, and in hardcover for \$4.95. It can be ordered from the publisher, The Bible Society of Canada, 100 King Street West, Toronto, Ontario.

STETTLER ALBERTA

AUDITOR'S CERTIFICATE

We have examined the balance sheets of **Stetler Municipal Hospital District No. 36** as at **December 31, 1986**, and the statements of operations and surplus for the year ended on that date. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of operations and surplus present the financial position of the **Municipal Hospital District No. 36** as at **December 31, 1986**, and the results of their operations for the year ended on that date.

Tony's Yearning

There's something in a woman's yearning for a man that is almost irresistible. It is a force that will drive her to do anything to get him. It is a force that will make her forget her own needs and desires. It is a force that will make her a slave to his whims and fancies. It is a force that will make her a woman.

DO YOU KEEP AN Octopus?

Your home is no place for an octopus - get rid of him as soon as you can. Octopuses are parasites... they rob your appliances of their electric power. They are dangerous. They grow and grow until they become five hundred.

Don't keep an octopus around your home. Remember that octopuses bring pay three-way dividends. It reduces your power bill... lets your appliances operate at maximum efficiency... eliminates fire hazards. If you've got an octopus around your home - show it to your electrician.

The Merchant is a Maker as Well as a Publisher of "News"

Every Good Store Is A News-Centre

A merchant's space in this newspaper is his own Newspaper, through which he publishes the things concerning his store which, in his view, constitute his chief "store news."

The readers of this newspaper accept his advertisement as the record of his store week by week, not only of the things he is doing, but of the things he is preparing to do.

In this important regard the merchant has an advantage, in the publication of his newspaper, over the publisher of the paper which carries his news for him. For the publisher may print the news that has happened—no more; while the merchant CREATES and prepares the happenings which his newspaper advertising describes.

He may make these store-happenings a series of routine advertisements, or he may make them a series of surprises.

His advertising may be thus made merely serviceable to the readers of this newspaper, or it may be made deeply interesting, and a constant source of enjoyment, of interest, and of responsible public service.

A good store is one of the most interesting of human institutions, and the advertising of a good store should be made to rank with the most interesting of reading matter.

And while the "happenings" in a good store are all enhanced, to say the least, by their relation to sales and special promotion—of particular kinds of goods.

There are other store-events which rather force themselves upon the merchant.

The unexpected may happen as to sales in some special line of merchandise—this merchant may be left with a larger surplus of stock than he can carry. There he is forced to make "something happen." He arranges a special sale, makes unusual price concessions, and the event is NEWS to every patron or prospective patron of his store.

The above conditions realize that he must use to it that his store is a store of events, where things happen—and to make the most effective advertising of such a store a reality in no easy task.

The people of the extensive district in which the Independent circulates cannot be as effectively or as economically reached by any other medium or method for advertising as by the columns of this newspaper.

The merchants of few other towns in Alberta have the facilities of reaching the residents of the district they serve equal to those provided by the extensive circulation of the Independent.

If you want to reach the people, use the Independent, Central Alberta's Leading Weekly.

From The Legislature ...

By Mrs. Hume

The House of Commons, Ottawa, March 24, 1959. The House of Commons today passed a bill to amend the Income Tax Act, which will increase the tax on dividends received by individuals. The bill was introduced by the Minister of Finance, Mr. James Duggan, and was passed by a vote of 147 to 104.

The bill will increase the tax on dividends received by individuals from 15 per cent to 25 per cent. This increase will apply to dividends received by individuals who are not exempt from the tax. The bill will also increase the tax on dividends received by corporations from 15 per cent to 25 per cent.

The bill was passed after a lengthy debate in the House. The Minister of Finance, Mr. Duggan, defended the bill, stating that it was necessary to increase the tax on dividends in order to raise revenue for the government. He stated that the bill would increase the tax on dividends by \$1.5 billion per year.

The opposition, led by the Minister of National Defence, Mr. Gordon Phillips, opposed the bill, stating that it was unfair to increase the tax on dividends. He stated that the bill would increase the tax on dividends by \$1.5 billion per year, which would be a burden on the taxpayers.

The New Massey-Harris Tractor

It's Here... and It's a Good One
It will pull 5-14 inch plow bottoms in tough conditions. It will easily handle a 19 foot One Way. It will walk away with a 13 foot Wide Level Disc Harrow. It will pull a 12 ft. Heavy Duty Cultivator in average soil.

IN OTHER WORDS IT WILL PULL THE BIGGEST IN ORDINARY FARM MACHINES.

And the reason it's so big is because its engine horse power, rear weight, and size are enhanced.

The tractor graveyard is full of old tractors with too much horse power for their wheels to hold. The thing that counts is the horse power that can be applied to the ground.

Massey-Harris-Ferguson engineers have spent stupendous amounts of money in planning their new models. They feel that the "555" is the ultimate in power on wheels.

Women's Institute of Canada Lauded By U.N. For Work

The Associated CRAFTS of the World, a body of 100 nations, has elected the Women's Institute of Canada as the only Canadian organization to be represented at the United Nations Conference on Women's Status in the Near East, held in Cairo, Egypt, last year.

The Women's Institute, the Canadian chapter of the ACPW, was elected to the position of "honorary member" of the United Nations Conference on Women's Status in the Near East, held in Cairo, Egypt, last year.

What makes this election so important is the fact that the Women's Institute of Canada is the only Canadian organization to be represented at the United Nations Conference on Women's Status in the Near East, held in Cairo, Egypt, last year.

From The Legislature ...

By Ron Brown
The Alberta Legislature is currently in session, and the members are discussing various bills. The government has introduced a number of bills, including one for the purpose of amending the Education Act. The opposition has also introduced several bills, including one for the purpose of amending the Labour Relations Act. The session is expected to continue for several more days.

Smart and Your Grain

A few years ago, most of the grain in Alberta was sold to the United States. However, in recent years, the grain has been sold to a number of other countries, including Canada, the United Kingdom, and the Netherlands. This has helped to diversify the grain market and has helped to stabilize the price of grain. The grain industry is a very important part of the Alberta economy, and it is important to ensure that it remains healthy and profitable.

STETTLER INDEPENDENT

The Editorial Page - Independent But Not Hostile

Letters To The Editor

On many occasions it has been pointed out that every other editorial page in this paper is a letter to the editor. This is a very good thing, as it allows the public to express their views on the issues of the day. However, it is also a good idea to have a page that is independent of the letters to the editor. This page can be used to discuss the issues of the day in a more objective and balanced way.

The High Cost of Living

When the former editor of the paper, Mr. Stettler, died, he left behind him a large estate. This estate was used to fund the paper, and it was this fund that allowed the paper to continue to operate. However, the cost of living has risen so high that the paper is now in a difficult financial position. This is a very sad situation, as the paper has been a valuable source of information for the public for many years.

Wasting Our Money

It is a sad fact that the government is wasting a large amount of money on the Vietnam War. This money could be used to improve the lives of the people of Canada. The government should be more responsible with the money it spends, and it should be more concerned about the needs of its citizens.

Farm Forum Thinking

There is still a place for the family farm in Canada. The family farm is a very important part of our country, and it should be protected. The government should take steps to ensure that the family farm can continue to operate for many years to come.

Who Remembers When??

It is a sad fact that the government is not doing enough to protect the environment. The environment is a very important part of our country, and it should be protected. The government should take steps to ensure that the environment can continue to exist for many years to come.

For Whom The Bell Tolls
